## Getting started is easy!

Beatles themed side table

### Pick your theme, pictures and size

Maybe you saw one of our themed tables and just want to buy one of those outright, or maybe you like a particular themed table, but not all of the pictures. Maybe you want to start completely from scratch on your own idea and want a pre built table or maybe you want to go all the way and get a custom size as well.

Well, we can do all that for you. Just pick your theme, pictures and size and we will begin building your table to be completed in 10-14 days after full payment is received.

We work with you via email every step of the way to make sure your choices will fit the table and look good together and we will let you know if there are any issues as soon as they come up. Please know that we will never try to fix or censor any of your photos or artwork, but we do want your finished product to be as close to perfect as possible.

## Contact us

Once you know you want a table all you have to do is reach out to us on Facebook or via email. I promise we are super friendly and are more than willing to answer any questions you may have and alleviate any concerns.

## FAQ

### What is your standard size and how many tiles should I choose?

We recommend our  $21\frac{5}{8} \times 21\frac{5}{8}$  side table for \$90 and our  $35\frac{3}{8}$   $21\frac{5}{8}$  for \$180. The side table holds 25 tiles and the coffee table holds 40. If you have a specific size in mind, we will do our best to accommodate you, but please note that the tiles would need to fit on the table. We can also build a table to your specifications, but additional charges may apply.

### Do you deliver/ ship?

We can deliver and ship, but again additional charges may apply. We highly recommend having us deliver to you if you are close enough by as shipping is very expensive.

### What methods of payment do you take?

Cash and Paypal are preferred.

### What if I have my own table, will you tile it?

We can certainly measure it and try to accommodate you, but in most cases a table bought before, without this purpose in mind, will not work. Plus, supplying the table doesn't remove very much of the final cost anyway since labor is our biggest expense.

### How do I get the pictures to you?

We prefer jpeg files via email, but you can also mail or hand deliver us a cd. In cases where your photos are originals, we will not use them, we will make copies and return them to you.
